

Partially assembled LVDS cable set especially for LCD display applications

It's as simple and fast as that!

### LVDS cable set for prototyping ex stock available.

A perfect basic position for every prototype or sample manufacturing as to LCDs and display applications.

We supply the partially assembled cable as well as various connectors for both sides.

A large choice of samples is available from stock.

Each set includes:

- round or ribbon cable or single strand with different cross sections
- standard length 500 mm
- connectors from various manufacturers, up to 6 connectors per set
- unplugged on both sides

Please let us know your requirements. We would be glad to support you or to arrange a new set for you.

We are looking forward to submit you our customized, non-binding offer.
