ES&S's devices shall not be used for equipment that requires extremely high level of reliability, such as: -Military and space applications -Nuclear power control equipment -Medical equipment for life support

## 1. Functional description

This adapter set has been developed to extend a FFC/FPC cable e.g. for a LCD-display and to choose a custom-designed configuration. For this reason the adapter board is equipped with an unplugged (Hirose DF13 contacts) cable on one side to allow a configuration according to your requirements.

This system is suitable for prototypes and small series. Please contact us as to customized FFC adapters. In general more favorable prices can be offered as to quantities starting from 20 pieces.

This are the technical details:

- FFC/FPC style: 0.50 mm pitch, 0.30 mm thickness
- Side 1 : maximal 50 pin
- Side 2 : maximal 50 pin

Jumpercable A32-50 to DF13-10/40DS - > DF13-contacts are unstucked!  
Flexcables are not included and must be ordered separately.

## 2. Pictures

## 3. Dimension

Size: 46.2 (l) x 53.2 (w) x 8.8 (h) (in mm)

## 4. Temperature ranges

Operating temperature: -20°C to 85°C

Storage temperature: -40°C to 85°C

## 5. Weight

Weight without packaging: 16.0 g

Weight with packaging: 19.5 g
