

New price list from April the 1st, 2018

Dear Sir or Madam,

The economic development in Germany is extremely positive for many industries. The expectation for 2018 is good and point to accelerated growth.

However, this pleasant economic trend is leading to a scarcity of resources and in addition to it it's leading to a very tight situation on the procurement market for raw materials and primary materials as well as to cost increases in many areas and finally to increased personnel costs.

ES&S Solutions GmbH is known as a reliable supplier of cable assemblies, connectors, FFC and printed circuit boards. Our established range of products is constantly developing. We offer you numerous recent developments and customer-specific solutions to satisfy your customers needs the best possible way.

On April 1st, 2018 our new price list will be active. The price adjustment for our products will be moderate + 2.5%. Separate agreed terms and conditions with a compatible duration will automatically be valid until the end of term.

After keeping our prices stable for three years, this adjustment ensures that we can continue to supply you with technically advanced products.

Please arrange in time, so that we can still deliver your order at your current conditions - also blanket orders after agreement, if you like.

Best regards
ES&S Solutions GmbH

Klaus Stieler
Sales Manager

Hanah Reiners
Authorized Officer
