

NAVIGATE FASTER, EASIER & MORE PRECISELY
WE HAVE OPTIMISED OUR PRODUCT SEARCH FOR YOU - TRY IT OUT

Dear customer,

we want to offer you an **incomparable experience on our website!**

We have redesigned our product navigation! With our new, simplified and natural navigation, all product categories are now more easily accessible.

From now on, you will find our products, which you are looking for on our website, exactly where you expect them! All our content is easy to follow, makes sense and is always placed in a topic-oriented manner. Now all categories are listed in the main navigation. This way, all subcategories are visible at a glance and you can now easily navigate between the subpages intuitively or search explicitly and never lose the overview. In addition, you can now filter our products according to popularity, the newest, the oldest and end of life (EOL) models.

In addition to the modern and clear design of our website and the optimised product presentation, we have also taken care of the website page speed. The page load time optimisation of our website provides you with a higher user and a pleasant surfing experience.

We hope that you will now enjoy surfing on our homepage even more!

We look forward to your feedback & hope you enjoy browsing through our product range.

Your ES&S Team
