

Competence & experience in a double pack!

Dear customer,

the electronics industry is in a constant state of change, there are always new developments, new technologies with innovative products. So there are also always new developments at ES&S – both in our customised products and in the growth of our company.

Four years have passed since I took over ES&S from my father. Four years in which I have gained a lot of experience and introduced many innovations. It is a fulfilling time that makes me proud, as I have been there from the beginning and have grown up with ES&S. I am therefore all the more pleased to be able to inform you today that I have now taken over the management of our modern company.

**As of 14 September 2021, I have now officially taken over the management of
ES&S Solutions GmbH.**

Change always offers opportunities. As Managing Director, I dedicate myself to my new tasks with personal commitment and the greatest enthusiasm. Your satisfaction as a customer is most important to me!

I thank you and look forward to further exchanges with you!

Sincerely

Yours Hanah Reiners
